FINAL ACTION

Applicant's amendment of 6-16-03 has been considered. Claims 1, 2, 5-9, 11, and 16-19 are pending along with new claims 20-42.

Claim Rejections - 35 USC § 112, First Paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. **Lack of Description:** Claims 20-42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original claims refer to the G₁, G₂, G₃ and G₄ as having 1 or 2 nitrogen atoms, namely pyridyl and pyrimidinyl. Now, claims 20-42 allow for 3 or 4 nitrogen-containing ring, which is clearly not supported.

Claim Objections

2. Claim 17 is objected to because of the following informalities: A formula is missing, and should be inserted. The formula appeared in the marked up version, but not the clean copy. Appropriate correction is required.

Art Unit: 1624

Allowable Subject Matter

3. The amendment of 2-12-03 has overcome the rejections for claims 6 and 19. Thus, said rejection is withdrawn for the allowance of claims 1, 2, 5-9, 11, and 16, 18, and 19.

Potential Interference

4. It is recognized that there is a potential interference with U.S. Patent 6,403,595 B1 (Tawada et. al.). Usually in interferences, there will be only 2 or 3 counts. Therefore, cancellation of claims 20-42 is required. Applicant is suggested to copy claims that are closest to the common species, and have support in the instant specification.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
